Program: A full day of presentations and interactive workshop sessions with a working theme of "LEGAL AND ETHICAL ISSUES IN PROJECT MANAGEMENT".

Our agenda for the day will include these presentations and workshop sessions:

THE PARTNERING PROCESS - PREVENTION, NOT PROTECTIONISM

Brian McConachy, PMP - Even after a contract is signed, the participants can choose how they will conduct themselves by consciously choosing to be partners in success rather than just protecting their respective interests. This workshop will simulate a partnering session between a customer and a supplier.

PROJECT MANAGEMENT DEPENDS ON CONTRACT MANAGEMENT

Chris Quaife, PMP and Marc MacEwing To be effective, investments in Project Management and Legal expertise must be made early to establish prudent design and construction contracts. Project teams must focus on preventing problems by planning for contracts, tendering, contract administration and dispute management. This presentation and discussion will include management practices, legal principles and case law., and alternatives for dispute resolution

ETHICS COST! Joan Vincent - This presentation explores the relationship of ethics to cost and risk in a project management environment.

SHOW US YOUR ETHICS: DEALING WITH DILEMMAS WHILE MANAGING

PROJECTS. Walter Wawruck, PMP. Situations arise on projects where any course of action will have negative consequences for some of the parties at interest, or even the project manager. This workshop session, will engage the attendees in analysis and discussion of case examples which bring out the ethical issues and which illustrate some approaches to making the hard choices in a morally defensible fashion.

DISCLOSURE DURING THE SALES CYCLE - AN ETHICAL DILEMMA,
 Donn Chalmers, PMP - The sales environment for banking
