Subject: PMPs Required - No Experience Necessary

Dear fellow PMPS,

PMPs Needed
 No prior experience is required.

Project Management Professionals are needed to serve as presenters, workshop leaders, and seminar team members for the 2016 program of professional development seminars.

Presenters and Workshop Leaders
 ~~~~~

This is an opportunity to develop your presentation and facilitation skills in a friendly group of your peers.

The subject does not have to be original. You can explain a topic from an article, book, or journal in the project management literature. However, case histories are always well received, and you can talk about your own experiences on projects.

We are now assembling the program of professional development seminars for the year 2016. We would like to identify, in advance, potential presenters, workshop leaders, and topics. We would like you to be part of the program.

Please contact Robert Schulz, PMP to volunteer: [robert@ajae.ca](mailto:robert@ajae.ca). Please let him know by November 4, 2015 if you can.

At the November 18, 2015 PD seminar, we are organizing a workshop devoted to planning a full seminar program for the year 2016, and we would like to firm up your role in the program at that time.

A brief description of the planned program is given below. Get more information from Robert Schulz or any Officer of the Society:

President John Cooke, PMP [jcooke803@gmail.com](mailto:jcooke803@gmail.com),  
 Secretary Treasurer Ellyn Daly, PMP [ellyn@edcgroupinc.com](mailto:ellyn@edcgroupinc.com),  
 Registrar, Walter Wawruck, PMP, [wawruck@telus.net](mailto:wawruck@telus.net).

Our plan so far is to have a minimum of four seminars in 2016. We could easily accommodate another three seminars in the calendar. Here are the planned dates and general themes so far:

February 17, 2016. Managing IS and IT Projects - Better Practices  
 New Tools and Techniques that Affect the Project Management Practice

April 20, 2016. Big Project Blues: Managing the Challenges of  
 Very Large Projects Public and Institutional Sectors,  
 Engineering & Construction, Mining, Transportation, Utilities, IT

September 21, 2016. Engineering-Architectural-Construction Projects -  
 On the Level. Best Practices, Evolving Regulatory Controls,  
 Managing Sub-Trades, Private-Public-Partnerships (P3)

November 16, 2016. Organizational Maturity - Making Project Management Effective in Any Setting. Earning Credibility, Education, Managing People, Project Governance, Department Teams vs Project Teams, Matrix/Soft-Matrix Organizations

The themes are not rigid nor are they exclusive. Unrelated topics or general project management topics can be included in any program.

Or, if you have an idea for a seminar on a theme or topic that interests you, this is your opportunity. Volunteer to be the project manager for a seminar devoted to the issue of concern to you.

Seminar Management Team Members

In addition to technical presenters and workshop leaders, these are the roles on the management team for each seminar. Additional volunteers are invited for all. One person may be asked to do two or more jobs:

- Project Manager
- Technical Program
- Binder Co-ordination
- Facilities and Food
- Registration and Collection
- Evaluation Report

**ABOUT THE SOCIETY - WEBSITE ADDRESS**  
 \*\*\*\*\*

The Society of PM Professionals is a voluntary, democratic organization of PMP@s in the Greater Vancouver area, who are dedicated to the achievement of their common purposes in the profession through mutual support, co-operation, and collective effort.

There are more than 450 PMP@s in the Vancouver area who receive notices of Society events.

The Society holds at least three Professional Development Seminars in Vancouver each year.

The Professional Development Seminars feature technical presentations and workshop facilitation by PMP@s for the purpose of continuing professional development. The seminar is intended for PMP@s. However, a PMP@ may invite guests who are committed to the advancement of the Profession. Practitioners who plan to become certified as PMP@s are welcome in particular.
